## DIARY 2021

Mar/Apr? - Vietnam Vets Open Day (TBC)

Mar 18th - Inverloch Expo

Mar 31st - Annual subscriptions due

Apr 4th - Committee Meeting

Apr 11th - General Meeting

May 2nd - Committee Meeting

May 9th - General Meeting

May 6th - Bunnings BBQ

June 6th - Committee Meeting

June 13th - General Meeting

## WOODIES WORKSHOP SESSIONS

### WOODTURNING: Regular Sessions

Monday 9 am to 12 noon - Hartley Tobin: 5997 6328  
Neil Lenne: 5678 5736

Monday 1pm to 4pm - John DiStefano: 0481 480 812

Monday 5 pm to 8 pm - Michael Bladen: 0428 270 850

Wednesday 1pm to 4pm - Lionel Wood: 0409 695 950

Friday 9 am to 12 noon - Hartley Tobin: 5997 6328

Neil Lenne: 5678 5736

### SEGMENTED TURNING: Regular Sessions

Friday 9am to 12 noon - Neil Lenne: 5678 5736

### WOODTURNING: On-demand Sessions

Friday 1 pm to 4 pm - Hartley Tobin: 5997 6328

### TOY GROUP: Regular Sessions

Tuesday 9 am to 4 pm - Peter Myers: 0413 122 103

### PYROGRAPHY: Regular Sessions

Friday 1 pm to 4 pm - Michael Bladen: 0428 270 850

### SCROLL SAWING: Regular Sessions

Wednesday 9 am to 12 noon - Lionel Wood: 0490 695 950

### BANDSAW BOX MAKING: On-demand Sessions

Monday 1 pm to 4 pm - Marion Kerry: 0409 010 843

### JOINERY & SMALL FURNITURE MAKING: Regular Sessions

Thursday 9am to 12 noon - Syd Gordon: 0434 614 573

### CARVING: Regular Sessions

Friday 9am to 12 noon - Harry Smith: 5674 8078

Lionel Wood: 0490 695 950

**As a courtesy to workshop supervisors and other participants please advise in advance if you are unable to attend your regular session.**

## PRESIDENT'S MESSAGE

Hi all and welcome to the March newsletter. As I am writing this, the sun is shining and it is a great day to be out and about. The club would like to wish Bernie B. a speedy recovery as he is not well at the moment and we hope he is home soon. I would like to thank all of the people who assisted in the Bunnings BBQ this month and a special thanks to those new members WHO were there as well.

We have a new supervisor for the toy group and I would like to thank Peter Myers for putting his hand up to take it on, it is much appreciated. At the moment we are having great roll ups at all sessions, which is great to see. Camaraderie around the club is the best I've ever seen, so keep it up. The club recently attended a Cape Paterson Festival and a Inverloch Expo which went over very well. I would like to thank those members that assisted with these two events.

Remember we are having an Easter Shop soon. If you're intending to put items in for sale, don't forget to put your name on the roster sheet which is on the noticeboard in the clubrooms. The dates for the shop are from April 11 to 23. If you want to get things ready for sale, I suggest you start making more items in the workshop at home or at Club sessions. I hear that John DiStefano's segmented turning classes are quite full and there are a lot of people (*cont P2*)

interested in learning, so I hope this is a good outcome for you to start making some segmented pieces for yourselves. Just a reminder there is a sheet on the noticeboard for those people wishing to do training on any of the equipment that we have in the machine shop. If you want to be accredited, put your name down so that Syd or the supervisors can arrange for you to do the training and be marked off. I am doing a club shirt run and the sheet is on the noticeboard. If you would like a shirt they are \$47 and you must have your name down and money upfront before I will order the shirts. I have just heard my wife call out that there's a cuppa on, so I will sign off now and hopefully catch you around the club. Cheers, *Neil*.

## MEMBERS' BIRTHDAYS FOR MARCH

A very **happy birthday** to the following Members – *Kaye Illingworth, Frank Dunienville, Tony Hughes, Eric Thorpe, Amanda Robbins, Ric Fallu, Gordon Garbutt, Rowena Matcock, Shane Gilmore.*

**There are still some birthdays not on our records. If we've missed you, please let Alan Hurst know or email [woodiesnews@gmail.com](mailto:woodiesnews@gmail.com)**

## SAVINGS ON EXPENDABLES

The club has expendable items purchased in bulk (sandpaper, super glue, Shellawax, EEE, etc.) for sale at Club cost price. We also have earmuffs, safety glasses and Covid-safe masks if you've forgotten to bring one. If you are interested in purchasing any of these items see your session supervisor for prices and availability.

## WHAT TOOL IS THIS?

**Last month's mystery tool** - An 18th Century Rounder Plane - also known as rotary plane, used to create accurate tenons or for rounding spindles for chairs. ***THIS MONTH'S MYSTERY TOOL .....***

**CLUE:** Very old - 15th century. But tradies, especially carpenters and woodworkers still use something similar today.

## UPCOMING EVENTS NEWS

**Easter Shop** - A reminder that a shop has been arranged for over Easter, covering the two weeks of the school holidays. The shop is the same venue in the Plaza Arcade that we've had for Christmas for a number of years. Michael Bladen will be the Shop Manager for this event. All members are encouraged to put items in for sale. As usual it is expected that if you put items in for sale you will also put your name on the roster to man the shop. The roster sheet is on the Club noticeboard. Lex has already sent out sales record sheets for details of your items and sales cards are available in the Club meeting room. More details will be publicised as we get closer to the event.

**Bunnings BBQs** - A roster sheet is on the noticeboard for the May 6th Bunnings BBQ. Please help our Club by putting your name down to help out.

**Resumption of General Meetings** - In February we had our first General Meeting for some time. However the March meeting wasn't held because it was a Public Holiday. It is expected GMs will be conducted each month from now on. A free sausage sizzle will be available at the April meeting.

**Training/Accreditation on major machinery use** is being arranged by Syd.. There is a signup sheet on the notice board. The sheet is for you to indicate your preference for training on machines that you need to use. Syd will then contact you to arrange a mutually convenient time. Thursday mornings are generally best for Syd, or speak to your session Supervisor.

**Newsletters from other Clubs** - A reminder that Newsletters that we receive from other Woodworking Clubs are emailed on to all our members. There is some great information and ideas in these newsletters and they are all well worth a read.

**Timber available at the Woodies** - There is still a substantial amount of excess timber available at the Club. Some is on the workbench outside the turning room and there are also slabs of Pine and Camphor Laurel behind the machinery shed.

## WELCOME TO NEW MEMBERS

A warm welcome to recent new member - **Stephen Edge**. We hope you enjoy being part of the Wonthaggi Woodcrafters. If you have anything you wish to ask or discuss at any time, please speak to one of our Session Supervisors or a Committee Member. Alternatively, do not hesitate to ring President, Neil Lenne or Secretary, Lex Van Saane. Of course this applies to ALL members.

## MEMBER PROFILE

### Denis Marsh

I grew up in Mount Waverley and married Karen in 1988 at Olinda. We have two children, both currently at university.

During my working life, I spent 40 years working in the superannuation industry. The last 25 years I worked with NAB in information technology. I'm hoping to retire in next few years. I

moved to the Bass Coast to get away from the busy city life. My wife and I have holidayed here for over 30 years. My parents had a holiday house in the 80's and 90's. I even had my 21st birthday at Inverloch, so we were always destined to live here. I love the beaches, trees and open spaces, and of course, the friendly locals.

I feel the one person who has had an exceptional influence on my life is the Dalai Lama. I have great admiration for his living example of altruism and compassion.

I have a variety of interests including local history and global affairs. Road trips, gardening, woodwork, and beach walks fill in my spare time.

When younger, I competed in gymnastics throughout my school years and I loved surfing when I was in my 20s. In further education, I completed a degree in biology.

My earliest memories of involvement in woodwork, were making a boat and using a lathe in grade 5. These days I most enjoy working with tea-tree drift wood and other recovered timbers.

I joined Wonthaggi Woodies when we moved to Inverloch and was keen to develop woodworking skills and learn from the woodworking masters. What I like about the Club is being able to learn to use new tools and to meet new people. I would like to be shown how to approach specific projects of interest, eg., how to make a dining table in the furniture group.

## DAD JOKES

*Dad jokes are both beloved and despised - like corny puns, they're funny because they're so not funny. But what makes a dad joke different from a regular pun? The signature of a dad joke is that it's utterly uncool. Grandma may be the queen of nonsensical sayings, but Dad is certainly the king of cheesy jokes.*

Did you hear about the kidnapping at school – It's all fine, he eventually woke up.

Why couldn't the bicycle stand up by itself – It was two tired.

What do you call a man with a rubber toe? – Roberto.

Want to hear a joke about paper? – Never mind, its tearable anyway.

What do you call a Mexican who has lost his car? – Carlos.

Why don't skeletons go trick or treating? – Because they have no body to go with.

Why did the coffee file a police report? – It got mugged.

Why do you never see elephants hiding in trees? – Because they are so good at it.

What is brown and sticky? – A stick.

What did the grape do when he got stepped on? – He let out a little wine.

*Thanks to Syd Gordon's daughter for this lot - and a couple more?? Oh, alright then.*

How do celebrities stay cool? They have lots of fans.

Why are spiders so smart? They can find anything on the web.

## MEMBER PROFILES

I would like to continue publishing a **Member Profile** in each Woodies Newsletter. Feedback has indicated that it has been a popular inclusion over many years and members love getting to better know others, especially those new to the Club.

It is not an onerous task, as about 1/2 a typed page is all that's needed and I will provide you with a pro-forma and guidelines to help.

**Disappointingly, since the last Newsletter, I have written to 6 members asking if they will do a Profile, and have had just one reply.** Please help me to keep this segment of the Newsletter going. *Alan.*

"I find, these days, that most of my conversations start out with: Did I tell you this already? or What was I going to say?"

## ANNUAL SUBSCRIPTIONS

A reminder that ANNUAL SUBS of \$60 are due by 30th March 2022. Payment may be made at any time by direct deposit to the Club's Bendigo Bank account using the following details -

Please note [your name](#) and the word **FEES** on your deposit so that the Treasurer knows what it is for.

In the name of **Wonthaggi Woodcrafters Inc.**

**BSB: 633 000**

**A/c: 155 675 507**

The above payment method is preferred, however your subs may also be made by EFTPOS at the Club by asking a session supervisor.

There are lots of spiders in our gardens at the moment and John DiStefano found this beauty. A very colourful specimen, about 1cm in size. Does anyone know what it is?

## NEW SESSION RULE - ALL GROUPS

Your Committee has discussed at length issues related to keeping workshops clean and tidy, replacing equipment after use and maintaining equipment for everyone's use and benefit. Problems associated with this have been detailed in previous newsletters and meetings. Unfortunately, although things have become better since sessions resumed in January, there is still a need for improvement.

**SO, as of Monday 21st Feb., work at ALL workshop sessions will conclude at least 10 minutes before the normal finishing time.** This 10 minutes will be solely for cleaning up - vacuuming, sweeping and cleaning machines, replacing all equipment in its allocated spot and ensuring all aspects of the workshop are ready for the next group to begin work when they arrive and for Supervisors to be able to leave the workshop at the same time as participants. This timing is **NOT OPTIONAL**, we want all groups to adhere to it. During this 10 minutes or so, participants can also talk to Supervisors about any issues with equipment, including maintenance concerns.

**Please support this initiative for the benefit of all members.**

**"I don't have time to read all these safety rules."**

## SHOW AND TELL

Red gum crush grinds ,Blackwood bowl, Lemon Scented Gum ball, all made by Neil Lenne

These two bud vases made from Cedar and Silky Oak and finished with Aussie Oil, created by Syd Gordon.

Bandsaw box in the shape of a tree. Also by Syd Gordon, this is a work in progress and is made from Blackwood and Radiata pine. There is still a hill to fashion to mount it on and sanding of the insides.

## SHOW AND TELL cont.

I enjoy turning pens, bowls, etc. for the sheer pleasure of making something pretty, sometimes I like to design and make something that is all about functionality. However my most recent project was an attempt to deal with the problem of holding up a laundry basket when putting up and taking down laundry.

We have a simple clothes line comprised of a rope between two pulleys attached to posts at the side of our house. So attaching some sort of frame to one of the posts seemed like a practical approach, and being able to fold it out of the way also seemed desirable. After a bit of doodling, I came up with the design shown in the photo. It's made from a small sheet of plywood (cut into 3 pieces) and a few pieces of 1cmx3cm pine. It took me a few sessions in the club's furniture shed, using the table saw, drop saw, bandsaw, sander, drill press and hand router, to cut the pieces out and assemble them. Then I brought it home to screw onto the post and check it works. Since then it's been taken down and given a few coats of exterior polyurethane.

The interesting thing about designing and making something, is that you inevitably come up with ways of improving the design. In this case I've learnt that trying to screw several bits of timber onto an irregular roundish vertical post can be hard to do and almost impossible to get everything neat and horizontal. So I'm considering an improved version that has the unit completely assembled independent of the post, and then simply bolted to the post.

My thanks to Syd, Anne, Hartley and others who helped me with their advice and encouragement.

*Colin Goodwin.*

## SHOW AND TELL cont.

I have been combining my hobbies of sewing and woodturning to make some pin cushions.

By way of a little background .... former Woodies club member Bruce Talbot and a few fellow turners from Phillip Island and surrounds have continued to meet at Bruce's place in Newhaven on a fortnightly basis since his passing last year.

As many Woodies know, Bruce and Bernie Billman (Cows) ran Turning Down Under weekends for over 20 years in the Cows CYC facility and also had regular sessions at their respective homes where they guided and helped other wood turners develop their skills.

Bernie passed away in July 2021 and when Bruce's health deteriorated, he was keen to ensure the group continued to meet and share their love of woodturning and did not disband when he passed away. Bruce's wife Caroline was very supportive of this idea and the group now meets every second Sunday – continuing to share ideas and remember both Bruce and Bernie.

During a recent session, I brought along a pin cushion that I had bought from the Woodies stall at one of the Newhaven Quilt Exhibition weekends a number of years ago. Caroline told me that Bruce and one of the other turners had developed a jig and "process" to make these pin cushions. Mick was very happy to share the jig and the process with me and after making a couple of cushion pads on one of the Sunday sessions, I have been able to recreate the jig and process at home and make a few more. The process starts with making the cushion pad and then turning a base to fit the pad. I have made a few different sizes – with a variety of fabrics.

It is great to be able to combine two different hobbies and make practical items – and of course continue to remember Bruce and Bernie and all the encouragement and help they provided over many years to local wood turners.

*Imelda Daly*

Below: This beautiful natural edge bowl was made from Redgum by John DiStefano.

## INVERLOCH EXPO

The Inverloch Expo was conducted at the Hub in Inverloch on Friday evening. It was a first time event and being from 4pm to 7pm, we weren't sure what to expect. However, there were over 40 stall holders promoting Inverloch and surrounds community groups and a good constant crowd was in attendance. Thanks to Lex & Frank, I think we had a successful time and hope we may potentially get a few new members and some support for our Easter Shop.

Hartley and other turners at work at the Bowna Turnaround, giving us an idea of the setup in the hall.

## BOWNA TURNABOUT

After missing out in 2021, the Bowna Turnabout 2022 went ahead on the last weekend in February. For the first time, Meryl and I took the opportunity to arrive a day earlier on the Thursday afternoon. Setting-up was much more relaxed than the usual rush on the Friday.

For those who are unfamiliar with this type of event, this one is held at the Ingenia Holidays Lake Hume, originally The Great Aussie Holiday Park, about 30 minutes' drive from Albury.

There are at least five similar events throughout Australia, however unfortunately Cowes TurnAround has had to close. Our friend 'Robbo' lists them all (with contacts) on his Facebook page.

This year there was a surprise. Lake Hume was full, right up to the edge of the park and we had to share the park with three Angling Clubs. They didn't get in our way and I don't think we got in theirs.

There was a 'minute's silence' for a number of previous attendees who had not made it through the last two years.

On a brighter side, it was 'catch-up' time for friends from previous events, the opportunity to make new friends and a chance to swap ideas, wood and even stories that have nothing to do with woodturning. Meryl and some of the other spouses, not involved in woodturning, took the opportunity to exercise, walking some of the tracks in the park.

In conclusion, I am happy to talk with any of our Club Members who might like to attend this or other similar events. A important reminder is that, in most cases numbers are limited, so early bookings are essential.

*Hartley Tobin*

The items Hartley made on his weekend at Bowna, including Olive, Sheoak, Camphor Laurel and Banksia bowls, and two segmented vases. The two pentagon shapes are part of something Hartley planned a couple of years ago but never got around to, so he made them into small dishes.

## A SMALL, LITTLE, TINY QUIZ

\*\*\*\* *Answers on Page 9, but don't look yet - see how many you can get correct first* \*\*\*\*

1. What is the smallest country in the world?
2. One of Robin Hood's merry men.
3. What is the smallest Australian State or Territory capital city?
4. What is the smallest Australian mammal?
5. Who sang 'Tiptoe Through The Tulips'.
6. Blonde petite Aussie female singer of the 70's.
7. What are made out of ticky-tacky and all look the same?
8. In a previous era, if your smalls were on the clothes line, what would they be?
9. Who sat on a tuffet? What is a tuffet?
10. In a nursery rhyme, who lost her sheep?
11. In area and population, what is the smallest country in South America?
12. Who said 'the sky is falling'?
13. What town did Superman grow up in?
14. What is the smallest planet in our solar system?
15. What is the smallest wind instrument in a standard orchestra.
16. What is the smallest ocean in the world?
17. Located northeast of Papua New Guinea, what is the world's smallest island nation?
18. What is the smallest bird in the world?
19. What is the Battle of Little Big Horn better known as?
20. A town west of Melbourne, near Geelong.
21. What were Phillip Island's Little Penguins previously known as?
22. American born Aussie boxing commentator on TV Ringside in the 60s and 70s.
23. The song 'Little Red Rooster' was sung by which famous band?
24. A popular quirky female Aussie TV personality of the 70s and 80s.
25. 'Two Little Boys Had Two Little Toys' was sung by which disgraced Aussie performer?
26. What is 'Tiny Towns'?

## JOKE OF THE MONTH

What's the best thing about Switzerland?

I don't know, but the flag is a big plus.

## STAY COVID SAFE AT THE WOODIES

*Whilst the Covid-safe rules have eased somewhat, at the Woodies some current rules, which reflect Govt. requirements/suggestions, should still be followed.*

1. You must be double vaxxed.
2. Use hand sanitiser/wash hands regularly.
3. Keep 1.5m apart wherever possible.

Also Woodies requirements -

1. Bring your own cup/mug and personal safety items - face shields, ear muffs, respirators, gloves, etc.
2. Write your name legibly in the sign-in book. This is essential for our insurance cover.

### SMALL, LITTLE, TINY QUIZ ANSWERS:

1) The Vatican 2) Little John 3) Darwin 147,000  
 4) Long tailed Planigale weighs just 2.6 to 6.6 grams.  
 5) Tiny Tim 6) Little Pattie 7) Little boxes 8) Underwear  
 9) Little Miss Muffet. A footstool 10) Little Bo Peep  
 11) Suriname 12) Chicken Little 13) Smallville  
 14) Mercury 15) Piccolo 16) Arctic Ocean 17) Nauru  
 18) Hummingbird 19) Custer's Last Stand 20) Little River  
 21) Fairy Penguin 22) Jack Little 23) Rolling Stones  
 24) Jeannie Little 25) Rolf Harris 26) A very popular board game

**Send any relevant articles, photos of interest, items to buy or sell, woodworking tips, tricks and jigs, or just any general suggestions for the Newsletter to -**

**woodiesnews@gmail.com**

Did you know that the woodworking sector has one of the highest accident rates in the manufacturing industry and you could also be at risk, even as a hobbyist? Contact with cutters and blades causes most accidents, but *slips and trips, dust and noise are also common hazards that cause accidents and ill health.* So clean up your mess and don't let it pile up around you. Slips and trips are commonly caused by -

- Tangled power cords
- Ladders lying round
- Paint tins, buckets and other random containers
- Untied shoelaces or inappropriate shoes eg. thongs or sandals
- Leftover wood & wood shavings piling up underfoot
- Heavy items overhead not secured well enough
- Poorly stacked storage containers
- Wet or otherwise slippery surfaces

### *Some other common-sense good advice -*

1. Always know who is nearby for help and have phone numbers handy. A mobile phone in the workshop is a good idea
2. Have an emergency plan
3. Have a suitably equipped first aid kit in the workshop
4. Wear the right clothes and footwear
5. Get the dust under control with an effective extraction system
6. If in doubt, ask for help or advice before continuing with any aspect of a project
7. Install good lighting, especially over machines
8. Practice good lifting habits - hernias and back injuries aren't fun
9. Take regular breaks ... or when you feel your focus or concentration is lapsing
10. Never work under the influence of alcohol or drugs, including prescribed medications that you know may cause drowsiness or other side effects

## CONTRIBUTIONS TO NEWSLETTER SEGMENTS?

If you have any funny stories, articles, *Tips, Tricks & Jigs*, favourite gadgets, items to sell or buy, interesting websites, pictures of things you've created or work in progress, send them to - [woodiesnews@gmail.com](mailto:woodiesnews@gmail.com)  
**Articles must be received no later than the 16<sup>th</sup> of the month please**, to be included in the next Newsletter.

## WOODIES CLASSIFIEDS

There are two categories; 'For Sale' if you have any tools or equipment you want to liquidate, and "Wanted" for those of you who are looking for preloved tools or equipment that other members may be willing to part with. There is no cost.

All you need to do to get an advert in, is write a short description (including contact details) of the item that you are selling, or wish to buy and send it to [woodiesnews@gmail.com](mailto:woodiesnews@gmail.com) along with any photographs where appropriate.

**Entries must be received by 16th of the month to be included in the next newsletter. Items will appear in two consecutive newsletters unless otherwise requested.**
