*A Community Project – Beryl Watling*

## WOW?

What an effort. Almost half our members participated in a very successful community project. Thanks to (in no particular order) Cath, Mario F, Peter F, Ian B, Robert, Jason, Tony, Joe, Jeff and Antoine.

Our catering crew – Ian, Cath, Antoine and Beryl. Our cooks – Mario and Lionel. Special thanks to Lionel who helped me prepare behind the scenes with cutting blanks, redesigning the template and adding his strength when I couldn't manage it.

It was a real production line – turners making the kururins and oiling them, Cath and I were adding the foam ends and packaging them into cellophane bags. We have 80 packed ready to go to an hospital – more details later.

We enjoyed a lovely lunch of barbequed sausages, onions, Antoine's delicious potato salad, coleslaw and pavlova for dessert. Lots of chatter throughout the day.

30 of the finished Kururins. 80 packed in total.

I finally ended up at the Northern Hospital and our donation was warmly received. One bag of 40 went up to the children's ward that afternoon and the second bag of 40 was put aside for Christmas. I left the staff in the Foundation office playing with their own Kururin. Well done everyone.

## *Show and Tell*

Antoine has made this Red Gum Sculpture and finished it with Danish Oil.

Mario Fenech is preparing for his later years with this lovely walking stick made from Blackwood and finished with Shellawax. The handle is solid brass.

*?? – ??*

We have more than 20 members, if everyone shared one story about their other interests, we would have enough articles for a little more than 2 years and I wouldn't have to 'harass' people ;-)

**Who would like to offer an article for next month? Don't be shy.**
